PROF Election – Bios

At the Salt Lake City meeting, the PROF Nominating Committee announced candidates for election to the following offices on the PROF Executive Committee:

Chair-Elect: George Heinze, Chris Bannochie
Secretary (two-year term): Jackie Erickson, Sue Schelble

Councilor (three-year term): John Borchardt,
Adam Myers

Alternate Councilor (three-year term): Greg Ferrence,
Dan Libby

Member at Large (two-year term): Lisa Balbes, Jim Landis, Vicki Finkenstadt, Keith Vitense

Our election chair points out that “both our Chair-Elect candidates are in the inaugural class of ACS Fellows. I’ll bet there is no other division that can make that claim!!”

Chair-Elect:

George Heinze

North Jersey Section- 30 Bunker Hill Run, East Brunswick, NJ 08816

Born; 1931 Member ACS- 51 years

Academic Record: Univ. of PA, 1951, Rutgers Univ. M.S. 1956

Professional Positions: Rockland Technimed Ltd. Pres & COO, 1999 to date; Alpha/Omega Consult. Assocs. Pres. 1994-1999; Retired 1994- R.W. Johnson Pharm Res. Inst. V.Pres. Bus. Devel., 1989-94; J&J-Janssen Pharm. V.Pres. Operations, 1980-89

ACS National Service: CONC. 1976-1980, Chair, 1989-90; CPC- Voting Member, 1981-82; Board of Dir. Councilor ex officio and Dir.-District III, 1983-84; Com. N&E, 1994-99, Chair, 1996-97; CPC, Member, ex officio, @001-03; Committ. on Meetings and Expositions, 2001-2004, Chair 2001-03; Com. on

Public Rel. and Com., 1992-97, Consultant, 1998-99; Com. on Memb. Affairs, 2008-09, Assoc. 2005-07. ACS Local Section Service: North Jersey Section: Councilor, 1970-83, Chair, 1978; Councilor, 1986-2010, Chair 1991. Chair, 32nd Middle Atlantic Reg. Meeting, 1996-97

Prof. Affiliations: NY Acad. of Sci., SAS, Alpha Chi Sigma

Honors: Sigma Xi, Phi Lambda Upsilon, Dist. Service Award- North Jersey Sec., 1998.

Related Activities: Chair, FDA Com. on GMP; Chair, Device Section- Pharm. Res. Manuf. Assoc.

Candidate’s Statement: I have a natural affinity for the Professional Relations Division of the ACS. I am a charter member, as well as one of the councilors who signed the original petition to establish it. As the chair of the Economic Affairs Committee (a predecessor of CEPA). I instituted the first salary survey of chemists and the first investigation of industry layoffs. But enough of history! - what should occupy us is today and tomorrow.

PROF stands in unique contrast to the more traditional efforts of the ACS. While much of what ACS does (and has done) has focused on advancing the chemical sciences and the education of chemistry associated scientists, only PROF has been concerned with the well-being of ACS members with respect to their professional status. Much of what the ACS presently does to promote professionalism comes from initiatives first proposed by PROF.

In the past two decades we have seen many jobs exported overseas, but have comforted ourselves with the theory that knowledge-based workers, particularly professionals in the hard sciences (chemistry, physics, etc.) were protected from this sort of exportation. Unfortunately, this is no longer the case. We are now seeing that some of the multi-nationals are starting to also export these job-types. What can be done about this? I believe this offers the ACS a unique opportunity to intercede, if we go about it with the

right approach.

Given the current economic depression, it appears that the government, after many years, is beginning to recognize that one of the drivers of economic recovery is scientific innovation and is contemplating greatly increasing support for scientific research and discovery. The ACS should quickly involve itself in supporting and encouraging these initiatives. In addition, many of these multi-nationals avail themselves of the research tax deductions given for research. PROF should advocate that the ACS take the position that these research tax benefits only be extended to those funds expended in the United States to support the sciences nationally-- funds expended overseas would not be eligible for these tax benefits. This would be a powerful incentive to keep and create jobs in the US. for chemical scientists. This would also have the collateral effect of supporting chemical science education in the US.

If elected chair of PROF, it would be my intent to promote initiatives such as I have described above in order to advance the welfare of our national membership. If this makes sense to you, I ask for your vote. Thank you!

Christopher J Bannochie

Savannah River National Laboratory,
Aiken, South Carolina.

Academic Record: St. John's University, B.A. Cum Laude, 1984; Texas A&M University, Ph.D., 1989.

Honors: American Chemical Society, Fellow, 2009; National Organization of Gay and Lesbian Scientists and Technical Professionals, Walt Westman Award, 2007; ACS Savannah River Section Salute to Excellence Award, 2006; ACS Stanley C. Israel Regional Award for Promoting Diversity in the Chemical Sciences, 2005; George Westinghouse Signature Award, 1992; Sigma Xi; Phi Lambda Upsilon

Professional Positions (for the past ten years): Savannah River National Laboratory, Fellow, 1991 – date; Lawrence Livermore National Laboratory, Visiting Scientist, 1998 – 2001.

Service in ACS National Offices: Committee on Science, 2007 – date; Joint Subcommittee on

Diversity, 2007 – 08; Committee on Meetings and Expositions, Consultant, 2008– 09; Committee on Economic and Professional Affairs, 1996 – 99, 2001 – 06, Chair CEPA Subcommittee on Professional Services and Programs, 1998 – 1999, Chair CEPA Subcommittee on Public Policy, 2001-2006; Division of Professional Relations, Member-At-Large, 2002, Program Chair, 2007 –08, Treasurer, 2003 – 08, Secretary, 2009 – date; 2010 International Chemical Congress of Pacific Basin Societies, ACS Topical Program Advisor, 2007 – date.

Service in ACS Offices: Member ACS since 1987. Savannah River Section: Councilor, 1996 – date; Archivist, 2001 – date; Newsletter Editor, 1995 – 98 Chair, 1994, Chair- Elect and Program Chair, 1993; Public Outreach Officer, 1992. SERMACS, Inc. Executive Committee, 2005 – 2010 (Chair, 2009); General Chair, SERMACS 2006.

Member: National Organization of Gay and Lesbian Scientists and Technical Professionals, Board of Directors 2009-2011; Leadership Augusta, Class of 2004, Board of Directors 2005; American Association for the Advancement of Science; ACS Divisions: Industrial and Engineering Chemistry, Professional Relations

Candidate Statement

First, let me thank the Division for the confidence they have shown me through this nomination for Chair-Elect. For the past seven years I have held positions of increasing responsibility within the Division, as well as assumed roles that were unfilled due to unexpected vacancies: Member-at-Large, Program Chair, Treasurer, and Acting Secretary. Additionally, I co-chaired the strategic planning effort which created five new subdivisions for Younger Chemists, Women Chemists, Minority Chemists, Chemists with Disabilities, and those interested in Ethics. We have strengthened the Division through the enrollment of new members representing all walks of the chemical enterprise. Through my past roles, I have learned a great deal about the Division, its people and its needs. These experiences, coupled with my experience programming through the Division while chairing the CEPA subcommittee on Public Policy, have helped me see the strengths and role the Division plays within the Society, as well as realize further areas where we can improve the Division.

As with most successful ACS groups, including

Committees and Local Sections, much Division business needs to occur between National Meetings. Volunteers need to be prepared to spend many more hours between official meetings conducting the business of the Society if any meaningful progress is to be achieved. As Chair-Elect of the Division of Professional Relations, I will work tirelessly to coordinate and strengthen our efforts at programming and service to our members throughout the calendar year. I will work to improve communications amongst officers and committee chairs. Additionally, I will work to strengthen our subdivisions and provide the members that have chosen to join these subdivisions with the kinds of products and services they are expecting from the Division. The subdivisions are a great resource for the future health and vitality of PROF, but they need to feel they are a part of the Division as demonstrated by our programming, newsletter, and decision making processes.

Again, let me thank you for this nomination and ask for your vote if you feel I can successfully contribute to the future of the Division as part of the chair's succession for the next three years.

Secretary:

Jacqueline Erickson

33 Ronald Rd. Lake Hiawatha, NJ 07034

Academic Record: M.S. Chemistry, Rutgers University, 1999; B.S. Chemistry, University of Delaware, 1988

Professional Positions (for last ten years): Senior Development Scientist, 2006-Present, GlaxoSmithKline Consumer Healthcare; Senior Analytical Scientist 1999-2006, GlaxoSmithKline Consumer Healthcare/SmithKline Beecham; Analytical Scientist, 1990-1999, SmithKline Beecham; Associate Scientist, 1988-1990, Beecham Products.

Service in ACS National Offices: Committee on Membership Affairs, Member 2006-2010, Secretary, 2007-2009, Associate Member 2005; Women Chemists Committee, Associate Member 2001-2005

Service in ACS Offices (North Jersey Section): Councilor, 2000-2011; Treasurer, 2008-2010; Chair, 2005, Chair-Elect, 2004; MetroWomen Chemists Committee Co-Chair, 2008-present; NJYCC Chair

2000-2003; 2005 MARM-Executive Committee Member and Arrangements Chair Member-At-Large, Division of Professional Relations, 2009

Professional Affiliations (non-ACS): American Association of Pharmaceutical Scientists (AAPS) Related Activities: ACS Divisions: Analytical Chemistry, Chemical Information, Professional Relations

Candidate Statement:

I am honored to be nominated as a candidate for Secretary of the Division of Professional Relations. My experience as Secretary of the Membership Affairs Committee, along with experience as Chair and Treasurer of a very large local section, has prepared me for this role.

As Secretary, I will work with the rest of the Division leaders in planning and implementing activities and programs to support the division members.

Susan M. Schelble

Metropolitan State College of Denver, Denver, CO.

Academic Record: St. Norbert College, BS in Medical Technology, 1971; University of Wisconsin, Stevens Point, BS in Chemistry, 1985; Colorado State University, Ph.D. in Organic and Analytical Chemistry, 1994.

Honors: Colorado State University Teaching Fellowship, 1990; Syntex Fellowship Award for Excellence in Organic Chemistry, 1993; Gamma Phi Beta Favorite Professor Award, 1994; Alpha Chi Omega Favorite Professor Award, 1994; Community Resources of Denver, Inc., Special Recognition Award, 2000; Green Chemistry Student Affiliate Award, 2005.

Professional Positions: Metropolitan State College of Denver Chemistry Department, 2005-Present; University of Colorado at Denver Chemistry Department, 1998-2005; University of Southern Colorado Chemistry Department, 1995-1998; Colorado State University Chemistry Department, 1993-1995; Colorado State University, Graduate Teaching/Research Assistant, 1988-1993; Wausau Public Schools, Chemistry Teacher, 1984-1988; University of Wisconsin Hospitals, Clinical Chemist, 1972-1976.

Service in ACS National Level: Appointment to the ACS Ethics Committee, 2005-Present; Appointment to the Board Committee on Community Activities, 2003-2005; Member of the National Chemistry Week Task

Force, 2001-2003; Judge in the Mid-Atlantic Regional *Chemagination* Contest, 2004;

Service to Colorado ACS: Awards Committee Chair, 2003-Present; Councilor, 2004-Present; Past Chair, 2003; Chair, 2003; Chair Elect, 2001; Alternate Councilor, 1998-2000; National Chemistry Week Coordinator, 1998-2000.

Research Interests: Studying organophosphorus compounds as synthetic reagents for preparation of thioamides. Studying reaction mechanisms and kinetics. Investigating learning strategies for chemical education. Working to incorporate news items in the chemistry classroom.

Related ACS Activities: Presentation of Ethics Workshops with ACS Colleagues at regional and national meetings, 2006-Present; Appointment to the ACS Examinations Institute Board of Trustees, 2008-Present; Member of the Diagnostic Undergraduate Chemical Knowledge (DUCK) Exam Committee, 2006-2008; Chair, ACS Organic Examination Committee 2004; Member of the ACS Organic Examination Committee 2002; ACS/Colorado Capital Day at the Statehouse, 2001.

Professional Memberships: American Chemical Society since 1982; Division of Chemical Education since 1990; Committee on Chemical Education Research (Friends, since 2002); Division of Professional Relations since 2008.

Candidate's Statement:

My activities in ACS have provided me with a multitude of experiences about the membership at both the local section and national levels. Through my work in local and national offices/committees I have gained a wealth of knowledge about how serve the many fantastic chemists in this organization. I am new to the Division of Professional Relations, and I became familiar with the work of PROF through my collaborations, with many PROF members, while serving on the Ethics Committee. If elected as secretary for PROF, I would plan to execute my duties in a timely manner, attend PROF meetings, and deepen the relationship that PROF already has with other committees (including Ethics) and Divisions of the Society. I would like to participate in any ACS activities that enhance the role of the professional chemist in the ACS and in the society at large.

Councilor

John K. Borchardt

8010 Vista del Sol Drive
Houston, TX 77083-5039

Academic Record:

Post-doctoral Research: University of Notre Dame
Ph.D., Organic Chemistry: University of Rochester
B.S., Chemistry: Illinois Institute of Technology

Professional Positions (for last ten years):

9/04 – present, self-employed consultant, technical writer

8/99 – 9/04, Research Chemist, then Technical Manager, Tomah Products

9/84 – 8/99, serious of research positions at Shell Chemical Company

Service in ACS National Offices:

1999 – 2009, Councilor, Division of Professional Relations, served on Council Committee on Economic & Professional Affairs and on Council Membership Affairs Committee

1984 – Councilor, Wichita Falls – Duncan Local Section, served on Council Committee on Economic Status

Service in ACS Offices (local section or regional):

1988-89, Chair-Elect and then Chair of what is now the Greater Houston Local Section 1980s served as chair of a variety of committees in this local section 1980-81, Chair-Elect and then Chair of the Wichita Falls – Duncan ACS Local Section 1979 – 1984 – chaired various committees in this local section now the Greater Houston Local Section 1980s served as chair of a variety of committees in this local section 1980-81, Chair-Elect and then Chair of the Wichita Falls – Duncan ACS Local Section 1979 – 1984 – chaired various committees in this local section

Professional Affiliations (non-ACS):

National Association of Science Writers
Society of Southwestern Authors

Related Activities:

ACS Career Consultant and Career Workshop
Presenter for 12 years

Candidate's Statement:

In my ten years as Councilor for the Division, I have tried to represent the interest of Division members. During this time, I missed only one Council session

when I was flat on my back in the hospital during the meeting. I have served the maximum allotted number of years on the Committee on Economic Status and now serve on the Committee on Membership Affairs. I have done the following:

- *worked on the ACS salary and employment surveys
- *promoted a greater focus on career-related symposia in national and regional meetings
- *promoted increased participation of the Division in Sci-Mix and other poster sessions at national meetings
- *worked on programs to increase ACS membership
- *advocated NOT making the petition process more difficult than it is now so that it is harder for petition candidates to get on the President-Elect and Director ballots.

In addition, I have served the Division as Program Co-chair with Tom Kucera for several years. As an ACS Career Consultant for 12 years, I have helped members at all stages of their careers with job-hunting and resolving on-the-job issues. I have also presented ACS career workshops at national and regional ACS meetings, at universities and at local sections. I have written an ACS book, "Career Management for Scientists and Engineers."

I have organized Division symposia on job-hunting, career issues and professional ethics presented at national ACS meetings. For example, for the recent Washington, DC ACS national meeting, I organized the "Be a Consultant – Here's How" symposium with George Heinze for the Division and am presenting two papers in this symposium. I am also presenting two 90-minute workshops for the Division.

I remain a high-energy individual. If reelected, I will continue to work on these issues and do what I can to promote the interests of Division members by continuing the above activities and taking appropriate positions on new issues as they arise. Currently I am very concerned about the status of ACS finances and budgeting and have discussed these with ACS

national office staff members. I will do what I can to see that funding is not further reduced for the Office of Career Management and various Education division functions that help chemistry students compete in the job market.

I hope to receive your vote and continue to serve the

Division.

Don't Forget to VOTE!!!

Adam Myers

2701 Kent Avenue
West Lafayette, IN 47906

Academic Record:

Ph.D. in Organic Chemistry, Purdue University,
December 2005

B.S. in Honors Chemistry/Biochemistry with a minor
in French, May 2000.

Professional Positions:

Senior Scientist – Pharmaceutical Analysis, BASi,
West Lafayette, IN, 2007 – present

Senior Manufacturing Chemist, Quadraspec, Inc.,
West Lafayette, IN, 2006-2007

Chemical Safety Officer, Quadraspec, Inc., West
Lafayette, IN, 2006-2007

Graduate Research/Teaching Assistant, Purdue
University, 2000-2005

Intern, Eli Lilly and Company, Indianapolis, IN, 1998-
2000 (summers)

Service in ACS National Offices:

Division of Professional Relations: Chair, 2009

Chair-Elect, 2008 Joint Subcommittee on Diversity:
Member, 2009-present

Young Chemists Committee: Member, 2001-present

National Meetings Chair, 2004-2007

Program Chair, various terms

Service in ACS Offices (Local Section):

Purdue Local Section: Chair-Elect: Present

Related Activities:

College of Science Alumni Board, Purdue University:
President, 2006-2008

Vice President, 2005-2006

Member, 2001-present

Candidate's Statement:

It has been my privilege to serve the Division of Professional Relations as its chair this year, and I believe that I have only begun to scratch the surface of the ways in which I can grow this division. With the shape of the society changing as membership categories are revised and changes are being proposed to the petition process for national elections, having a dynamic and involved councilor is more important than ever before. It is my goal to be a strong voice for our division at council, and to represent the concerns and perspectives of the membership of PROF. The most important way that I can serve you is to voice the concerns of our membership, not just my own, and to be held accountable by all of you. I look forward to the opportunity to serve and represent you.

Alternate Councilor

Greg Ferrence

No bio available.

Dan Libby

No bio available.

Member at Large

Lisa M. Balbes, Ph.D.

Balbes Consultants

648 Simmons Ave., Kirkwood MO 63122

Academic Record:

B. A. Chemistry and Psychology, Washington University in St Louis, 1985

Ph.D. Organic Chemistry, University of North Carolina at Chapel Hill, 1989

Professional Positions (past 10 years):

Balbes Consultants, Freelance Scientific Communication Consultant, 1993 - present.

ACS National Offices:

Committee on Economic and Professional Affairs (CEPA), 2007 - present. CEPA Professional Program Development Subcommittee Chair, 2008 - present
CEPA Subcommittee on Standards and Ethics, member, 2008- present. Career Management and Development national Presenter, 2002 - present.

Treasurer, St Louis Section, 2005, 2006.

WebMaven St Louis Section , 1996 - 2004.

Director, St Louis Section, 2000.

News Media Coordinator, 2000-2001.

ACS Local and Regional Offices:

Midwest Regional Meeting 2011, Exhibit Chair
Newsletter Editor, Professional Relations Division, 2007 - present. Professional Relations Division Executive Committee, member at large, 2008-present.
Chair, Career Committee, CINF Division, 2006-08.
Councilor, St Louis local section, 2007 - present.
WebMaven, COMP Division, 2000 - 2008.
Career Resources coord, St Louis Section, 2003 - present. Chair, St Louis Section, 2002

Candidate Statement:

I have been honored to compile and edit the PROF division newsletter for the last 3 years, and to serve as a member at large on the executive committee for the last 2 years. I have learned a lot about how the division operates, what its mission is, and what it needs to do. I look forward to serving the division as a member of the executive committee, and helping to advance the professional development of chemists and chemical engineers.

Victoria Finkenstadt

United States Department of Agriculture,
Peoria, Illinois.

Academic Record: McPherson College, B.S., 1989;
Purdue University, Ph.D., 1997.

Honors: Women in Science and Engineering (WISE) travel grant, 1995; 40 Leaders Under 40, 2005; ACS Women Chemists Committee, Progress-GROW Grant, 2005; Fellow for Scientific Exchange with People's Republic of China, Foreign Agricultural Service (USDA), 2009.

Professional Positions (for past ten years): USDA, National Center for Agriculture Utilization Research (NCAUR), Research Chemist, 2000 to present. Postdoctoral Research Associate, 1998-2000; Purdue University, Postdoctoral Research Associate, 1998; Becton-Dickinson Polymer Research, Associate Chemist, 1989-91.

Service in ACS National Offices: Committee on Local Section Activities, 2004-09;

Service in ACS Offices: Member ACS since 1994.

Illinois Heartland Section: Councilor 2003-11;

WCC 2002; Immediate Past-Chair (Awards) 2001;

Chair 1999-2000. ACS Board Oversight Group on

Leadership Development: Member 2005-09. Great

Lakes Region: GLRM04 Program Chair 2001-04;

Steering Committee 2001-2007. Ad hoc Study Group

on Regional Meetings (ReACT): Member 2003-06.

Division of Agricultural and Food Chemistry: Web

Administrator 2008-present. Member:
Bioenvironmental Polymer Society 2000-present. ACS
Divisions: Agricultural and Food Chemistry; Cellulose
and Renewable Materials; Professional Relations.
Related Activities: Merit Reviewer: DOE-USDA
Biomass Utilization Research Projects 2009; USDA
National Research Initiative Competitive Grants
Program – Biobased Products and Bioenergy
Production Research 2005, 2008; USDA National
Needs Fellowships 2005. Peer reviewer: U.S. Civilian
Research & Development Foundation (CRDF) –
US-Moldovan Bilateral Grants 2002; US-Egypt
Science and Technology Program (USDA - Foreign
Agriculture Service) 2003, 2005, 2008. Published over
45 peer-reviewed journal articles or book chapters.

Keith Vitense

Department of Physical Sciences
Cameron University, Lawton, OK 73505

Academic Record:

Black Hills State College, B.S., 1982;
Oklahoma State University, Ph.D., 1988.
Honors: 2004 Chi Eta Sigma Chapter of PKP
Distinguished Faculty Award; 2001 Cameron
University Professor of the Year.

Professional Positions: Professor, Cameron
University, 1988-present; Faculty Intern, Halliburton
Research Center, 2001.

Service in ACS National Offices: President's K-12
Education Taskforce (2001); Associate and Member
of the Committee on Economic and Professional
Affairs (2004-present); Chairman, CEPA Employment
Services Subcommittee (2006-present); Associate
and Member, Ethics Committee (2006-present);
Committee on Awards (2006-2008).

Service in ACS Local and Divisional Offices:
Member ACS since 1982.

Wichita Falls - Duncan Section: Secretary
Treasurer (1989), Chair- Elect (1990), Chair
(1991), Alternate Councilor (1992-1998),
Councilor (1998-present). Division of Professional
Relations: Teller Committee (1992 - 1993)

Member: Phi Kappa Phi; Phi Lambda Upsilon.
ACS Divisions: Professional Relations; Chemical
Education.

Related Activities: NCAA Division II (DII) Executive
Committee Representative (2008-present), DII
Legislative Review Committee (2007 - present),
Lone Star Conference Council of Faculty Athletics
Representatives (CFAR) Chair Elect (2005 - 2007 and

2009 - present), CFAR Chair (2007-2009)

Candidate's Statement:

Over the past few years as I have been more
involved in CEPA and the Ethics Committee I see
the importance of a strong Division of Professional
Relations. I have been honored to receive a grant from
the Division to enhance the Ethics Workshops that
have been presented at various Regional and National
meetings. After having attended the last several
Executive committee meetings I believe that I can help
to contribute to the strength of the Division and to help
guide the Division through the changing times ahead
by serving on the Executive Committee.

PROF Programming in DC

Be a Consultant, Here's How

Sunday, 8:30 – Noon,

Washington Plaza Hotel, Adams Room

The symposium is intended to help scientists & en-
gineers considering becoming consultants learn the
important skills required for consulting success. Those
already consulting will get tips for succeeding in the
current recession. Successful consultants will describe
how they started their business, the role of mentors in
their start-ups and key success factors. Business skills
are as important as technical skills.

Critical Career Steps Workshop

Sunday, 2:00 – 3:30 PM, Convention Center

Intended for both young and mid-career chemists and
technicians, this workshop will discuss ways to be-
come a more valuable employee, increasing your job
satisfaction and broadening your career options. The
six key job performance factors will be discussed, as
well as using your professional network to achieve
on-the-job success. Attendees will leave with ideas to
increase their on-the-job success and satisfaction.

Finding Jobs at Small Companies

Monday, 2:00 – 3:30 PM, Convention Center

For the past decade 45 to 50% of new graduates have
gotten jobs at smaller companies (less than 500 em-
ployees). Mid- and late-career chemists are often
sought after by smaller companies because of their big
company experience. However, different techniques
are needed to identify candidate small employers and
approach them effectively. Interviewing is often dif-
ferent at smaller firms. You will learn these skills by
attending this workshop.

PROF MEMBERSHIP APPLICATION – GIVE TO A COLLEAGUE!

Join the ACS Division of Professional Relations – the member oriented division. In addition to enjoying a newsletter, special symposia and other programming, sponsorship of the prestigious Henry A. Hill Award, and other activities with your colleagues throughout the chemical profession, you will have the satisfaction of knowing that you are supporting the premier division within ACS that is concerned with the chemist rather than chemistry. All professional chemists belong in the Division of Professional Relations!
